

# BTS-NDRC 2020 – ANGLAIS

## SUJET 0

### PARTIE 2: MISE EN SITUATION

## Fair Phone 2 – The modular phone that's built to last

The world's first ethical, modular smartphone. Don't choose between a great phone and a fair supply chain.

### Inspiring social change

Long-Lasting Design

Fair Materials

Good Working Conditions

Reuse and Recycling

### Change is in your hands

Every Fairphone contains around 24mg of gold

To raise awareness about gold in smartphones, we're offering 24% off your new Fairphone 2.

### Built to last

Accidents happen, but that doesn't have to mean the end of your phone. Make it last with easy repairs and replaceable modules. Regular software updates also keep your phone running smoothly.

### Great performance, extra convenience

Two SIM slots for work or travel

5-inch 1080p display

24% off

~~€529.00~~ → €399.00

## **SITUATION.**

You work at Tesco in Dublin and you are in charge of the new tech department. You greet a customer who is a green activist, working for Greenpeace. Taking into account the environmental impact of e-waste is very important for this person who wants to buy a phone for his/her 15-year-old son.

### **Use the following hints:**

- price and design
- durability
- manufacturing conditions and environmental impact
